Yes sir, that won't be a problem. We will get it posted to avoid that area. If you need any barricades, let us know and we will accommodate those.  
Thanks,

William Bearden

**Subject:** FJ Doyle Salvage Cleanup - Poplar Street

Brad/Terry:

I wanted to let you know that we may need to close off N. Poplar Street at the northern portion of the school parking lot to the northern portion of E. Cottonwood (on N. Poplar) as we hope to be excavating areas near N. Poplar and will need to load trucks onto N. Poplar. The reason for this is due to the high line electrical wires on E. Cottonwood and limited or no space to pull trucks on to the industrial property. We will try to only close this during work hours from 7 am to 5:30 pm. We anticipate this closure to begin sometime during the week of January 28 until we complete the excavation activities. If you have questions, please give me a call.

Thanks
